

MISSION

To create an inclusive and accessible playground where all abilities can discover and experience the joy of play together.

VISION

The Diamond Discovery Zone is a community-driven initiative to design and build a fully inclusive and accessible playground in Albion, Indiana. Housed at Hidden Diamonds, this space will provide meaningful play opportunities for individuals of all ages and abilities, fostering social connection, physical activity, and belonging through the power of play.

ABOUT US

Albion and the surrounding Noble County area currently lacks a truly accessible and inclusive playground—one that allows children and adults of all abilities to play side by side in a safe, engaging, and welcoming environment. The Diamond Discovery Zone seeks to change that reality. This project will be the first all-inclusive playground in our region, intentionally designed to remove barriers and promote participation for everyone—regardless of physical, cognitive, or sensory ability. For many families, this will represent their first opportunity to experience a community play space where inclusion is not an afterthought, but the foundation of the design.

NOT JUST A PLAYGROUND

The Diamond Discovery Zone will directly address the critical lack of accessible and inclusive play opportunities in Albion and the surrounding communities by creating a playground that allows children, adults, and families of all abilities to play, connect, and grow together.

The Diamond Discovery Zone will not only fill a critical gap in recreational access—it will stand as a visible symbol of what it means to build a community rooted in equity and inclusion.
